Forever Don't Last

The Nitty Gritty Dirt Band

Here we go

Same these days, I think about her Dream up ways to live with out her We made vows that I can not excuse Yes, forever don't last the way it used too

We filled the church and hired a preacher I raised her veil to reach her Lives on the promise of her youth But forever don't last the way it used too

Eternity can not be messed with the law says
You might confess to enough coals, hotter hell you fool
Then you swear an oath and then take it back, anytime you choos
e

That forever don't last the way it used too

Hammers, razors fill the trash You throw 'em out when you use the last Get a new form son, don't become Confu Sed If forever don't last the way it used to

Forever don't last, forever don't last
Forever don't last, forever don't last the way it used too
Forever don't last, forever don't last
Forever don't last, forever don't last

Take a break
