

# I Love Only You

The Nitty Gritty Dirt Band

I like to drink my beer  
Spend time with the boys  
After work, to down a few  
Is something I enjoy  
And sometimes I stay out too late  
Yes I know it's true  
But I love only you

And I like to take life easy  
Work out in the yard  
Sleep late on the weekends  
After an all-night game of cards  
And drivin' my old chevy  
On a sunday afternoon  
But I love only you

I like my old guitar  
And I'd like to be a star and shine on you  
I'd like to write a song  
The whole world could sing along  
I love only you

I like my old memories  
The girls I used to know  
Some of them still have a place  
My mind likes to go  
Of all the ones I've cared for  
Lord knows there's been a few  
But I love only you  
Honey, I love only you
