

# Love Is The Last Thing

The Nitty Gritty Dirt Band

Since she was seventeen, I was her guy  
She was the light of my life  
Well, of all the silly games we used to play  
Love was the first thing we prized.

So unexpectedly became a thief  
I heard these things happen but never to me  
Left me walking in shadows, stumblin' blind  
Searching for ways to get by.

Got to find me a girl who can change my world  
And make, make it all worthwhile  
Take it all away and my heart sees clear  
Love is the last thing  
It's just the last thing  
Love is the last thing to go.

See all the lights laid out below my feet  
The city's so quiet tonight  
Someone is waiting for me down there  
It's time to get back in this life.

Got to find me a girl who can change my world  
And make, make it all worthwhile  
Take it all away and it's all so clear  
Love is the last thing  
It's just the last thing  
Love is the last thing, ooh  
Oh, it's just the last thing  
Love, love is the last thing to go.

Love, it's the last thing.
