Partners, Brothers And Friends

The Nitty Gritty Dirt Band

The promoter says he wants to cancel Cause there ain't enough tickets sold The air conditioner on the bus just broke And I cant shake this cold

The single lost the bullet,
The singers losin' his wife
Well I might be crazy but I wouldn't change
A single thing about this life.

Sometimes we feel like champions, Sometimes we just cant win, Sometimes our records hit the top of the charts Or the discount bargain bins.

[Chorus]

Through 30 years of touring We've remained partners, brothers, and friends We keep it together cause we love it and were sure Well be big time before it all ends.

Well you know you've got the nitty gritty And jimmy's got his drums along Then Jeffrey and me and bobby will be Singing all our favorite songs

Catch the fire from the folks in the front row Fan the flames as the beat gets strong Its great to be a part of something So good that's lasted so long

Well I saw a story in the paper Suddenly the bands big news The critics all like our records just fine But they seem a bit confused

Is it folk or rock or country Seems like everybody cares but us So just leave us an early wake up call So we don't miss the bus

[Chorus]

The band says it cant stand my latest song, its too personal But my first wife's second marriage blew up
She had to get the dang thing annulled
Well if that ain't something to sing about
Well you tell me what is
And well give it a beat and put it on the street
And we just might have another hit

[Chorus]
