Safe Back Home

The Nitty Gritty Dirt Band

I put on her colors with honor And carried them over the sea To battle at the mouth of the devil's tunnels Are you safe back home praying for me And do you still use the same words you taught me That you learned at the Dear Savior's knee On that sweet morning there in the garden And are you safe back home praying for me

How long (how long) How long (how long) Will the words of this prayer be my hope If it be His will and I'm the leopard that will We'll say Amen together I know

On patrol in the cold of this desert I trembled as I waited for my relief And I picture a circle of family Are you safe back home praying for me

Chorus

How long (how long) How long
