

# Happy Song

The Nixons

I would fly away  
I would fly to heaven  
Tip toe in the back  
If I knew where it was at

I could smile this way  
I could smile forever  
Vision in my mind  
A place that has no time

Come take me there  
While the world is laughing, it looks so sad  
Come take us there  
And I'll show you what its like  
Make it rain

I could smell this way  
Could go on forever  
I'll never clean myself  
You can all go straight to hell

Come take me there  
While the world is burning, it barely turns  
Come take us there  
And I'll show you what its like

Make it rain, make it rain forever  
Make it rain, and I'll stay for dinner  
What are we having tonight?

When I close my eyes, I can see forever  
Never be myself, I could never be anybody else

Come take me there  
While the world is burning, it barely turns  
Come take us there  
And I'll show you what its like

Make it rain, make it rain forever  
Make it rain and I'll stay for dinner  
Climb to heaven  
Hang me on the wall she said  
They all go down, they all...  
Make it rain
