

Chemicals

The Notwist

Chemicals will hit you
Chemicals will knock you down
Is it over
'cause you feel no pain
Throwing me around

You attack my head with numbers
You tack my room with things of glass
You attack my neighbours
'Til you've found someone
Who's cleaning up the mess

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep

Chemicals will hit you
Chemicals will knock you down
Is it over
'Cause you feel no pain
Throwing me around

You attack my head with numbers
You tack my room with things of glass
You attack my neighbours
'Til you've found someone
Who's cleaning up the mess

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep

You are no good
You are no good
'Cause I know you can't sleep

Til you know your overbearance
Makes me creep

You are no good
You are no good
'Cause I know you can't sleep
Til you know your overbearance
Makes me creep
