

Electric Bear

The Notwist

Then I saw the electric bear
Now he's always there
I can talk to him behind my door

I can talk of your eyes every day
Cause they don't look old
And I never feel any cold

All the things I do with you
They don't fade away
All the things I do with you
They don't fade away

Then I saw the electric bear
Now he's always there
I can talk to him behind my door

I can talk of your eyes every day
Cause they don't look old
And I never feel any cold

All the things I do with you
They don't fade away
All the things I do with you
They don't fade away

All the things I do with you
They don't fade away
