

## My Faults

The Notwist

When the bomb escapes you  
I see people under the under  
The rulings said not  
I'll hear them cry

I'm so tired  
I'm sick and tired  
And nothing coming off  
That not my fault

It's not my fault  
I try to give you  
It's not my fault  
I try to confuse

Tried to be everything  
Tried to be everything  
But romance starts here

Did it for all to see  
Did it for me to see  
That nothing ever changes  
In this small town

It's not my fault  
I tried to give you  
It's not my fault  
I tried to confuse

It's not my fault  
I try to give you  
It's not my fault  
I try to give you
