

My Faults

The Notwist

When the bomb escapes you
I see people under the under
The rulings said not
I'll hear them cry

I'm so tired
I'm sick and tired
And nothing coming off
That not my fault

It's not my fault
I try to give you
It's not my fault
I try to confuse

Tried to be everything
Tried to be everything
But romance starts here

Did it for all to see
Did it for me to see
That nothing ever changes
In this small town

It's not my fault
I tried to give you
It's not my fault
I tried to confuse

It's not my fault
I try to give you
It's not my fault
I try to give you
