

No Love

The Notwist

I try to be calm
But it makes me tired
I stare at my feet
I'm what you once admired
But you're not colder
Than before

Hi, it's me
Remember the things we've seen?
They stay with me
And appear on my inner screen

No love
No love
No love
Say, there's no love

No love
No love
No love
Say, there's no love

I try to be calm
But it makes me tired
I stare at my feet
I'm what you once admired
But you're not colder
Than before

Hi, it's me
Remember the things we've seen?
They stay with me
And appear on my inner screen

No love
No love
No love
Say, there's no love

No love
No love
No love
Say, there's no love
