

## No Love

The Notwist

I try to be calm  
But it makes me tired  
I stare at my feet  
I'm what you once admired  
But you're not colder  
Than before

Hi, it's me  
Remember the things we've seen?  
They stay with me  
And appear on my inner screen

No love  
No love  
No love  
Say, there's no love

No love  
No love  
No love  
Say, there's no love

I try to be calm  
But it makes me tired  
I stare at my feet  
I'm what you once admired  
But you're not colder  
Than before

Hi, it's me  
Remember the things we've seen?  
They stay with me  
And appear on my inner screen

No love  
No love  
No love  
Say, there's no love

No love  
No love  
No love  
Say, there's no love
