The Notwist

I came back to ruin you declare
Because words not there
Because all things could be mine
As long as you decide

I came back to ruin you declare
Because words not there
Because all things could be mine
As long as you decide

And I came back
And I came back

I came back to ruin you declare
Because words not there

To kill you
You say
To kill you
Because nothing in this world
Can make me so sad

To kill you
You say
To kill you
Because nothing in this world
Can make me

I came back to ruin you declare
Because words not there
Because all things could be mine
As long as you decide

To kill you
You say
To kill you
Because nothing in this world
Can make me so sad

To kill you
You say
To kill you
Because nothing in this world
Can make me

To kill you
You say
To kill you
Because nothing in this world
Can make me so sad

To kill you
You say
To kill you
Because nothing in this world
Can make me
