

## Pilot

## The Notwist

He's living next the rails  
He can tell you things of different cars and trains  
Now he's trying the whole day  
To switch off time by causing train delay

Could be enough  
If only he's the pilot  
Once a day

Could be enough  
If only he's the pilot  
Once a day

Not a word to compensate  
Not a sentence to describe this desperate state  
Not a picture to compare  
We step into a room of opaque air

Could be enough  
If only we are pilots  
Once a day
