

One piece missing makes you small
Could be a day
Within a second you're alone

You want things that tell you exactly
What you really are
To make you feel complete

All I have is yours
All I have is yours
Because all I have is yours
It's standing here in front of me

One piece missing makes you small
Could be a day
Without a second you're alone

I want things that tell me exactly
What you really are
To make you feel complete

All I have is yours
Because all I have is yours
Because all I have is yours
It's standing here in front of me

All I have is yours
Because all I have is yours
Because all I have is yours
It's standing here in front of me

Because all I have is yours
All I have is yours
Because all I have is yours
It's standing here in front of me

Because all I have is yours
Because all I have is yours
Because all I have is yours
It's standing here in front of me
