

Your Signs

The Notwist

It's fine until you know you're here
And you're alone inside this head
On your shoulders

And then you're hard to find
You get me by the neck
You never change your signs

And then you're hard to find
You get me by the neck
You never change your signs

It's fine until you know you're here
And you're alone inside this head
On your shoulders

And then you're hard to find
You get me by the neck
You never change your signs

You never never change your signs

It's fine until you know you're here
And you never change your signs
