

Bake Potato

The Nylons

It's so necessary
When my nerves get cooked
You keep me rockin' on steady
When my soul gets shook
Oh, you make a good thing better, baby
Take me to your sacred ground
Make me want to move all around
Make it sizzle when you

(chorus)
Bake potato cos it feels so good
Bake potato just the way I like it
Honey you're my only appetite
Come on and bake potato on a cold, cold night

Everybody needs a sanctuary
Everybody needs to scream
Sidewalks are violent
Mother nature's being challenged
Show you a place where we can let off some steam

Want you getting under my skin, baby
Want you warming up my blood
Take me for a roll in the mud
Make it sizzle when you

(chorus)

Oh! when the wind howls
Oh! when the rain comes down
Oh! when the hurricane growls
Oh! I wanna come inside for the bake potato

Ooh, you make a good thing better, baby
Warming up my blood
Take me for a roll in the mud
Make it sizzle when you

(chorus)
