

# Good Old Acappella

The Nylons

Well there's a light coming from the window  
And it shines down on the street  
There's some guys standing on the corner  
Singin' that good old harmony

And the light coming from the window  
Shines on a streetcorner symphony  
Let 'em laugh, let 'em sing  
Makin' that good old harmony

Chorus:  
Soul to soul  
Brother to brother  
Acappella  
Sounds good to me  
(repeat>

I just want it understood  
The boys brought boogey to the neighbourhood  
And they're standing under the light  
\*\*? of the night

Singing that good old acappella  
Sound that sounds so sweet  
Light, let 'em sing  
Makin' that good old harmony

Chorus

When I turn out the light  
Say goodbye to another night  
I'm gonna rest my weary head  
Put my bones away to bed

I'm gonna get on my knees and pray to the lord  
To give me just one more day  
Oh lord, hear my plea  
This music means so much to me

Chorus
