

I Love It When You Call My Name

The Nylons

Once I dreamt love would set me free
Warm as a kiss blowing on the breeze
Your love is a vicious game
I'll never be, never be, never be free again

You tell me lies so I'll make love to you
You make me do things I don't want to do
Baby, I come for the pleasure and I feel the pain
You spend my money take what you can get
You say you're sorry I forgive and forget
Baby, I take you back knowin' you'll do it again, and again and again
But I love it when you call my name

When you call my name give me such a thrill
Call my name, zero in for the kill
You know you've got yourself a deadly aim
I love it when you call my name
I love it when you call my name

You pretend, you tease and you taunt
You never give me the love that I want
Love too cool, you could drive me insane
I said, 'don't wanna be the one in control
You hold the power and you won't let go'
Baby, I'm just a prisoner taken by the shame, oh yeah
But I love it when you call my name

When you call my name I come runnin' to you
Call my name, there's nothing I wouldn't do
You turn a spark into a ten foot flame
I love it when you call my name
I love it when you call my name

Once I dreamt love would set me free
Warm as a kiss blowin' on the breeze
Your love is a vicious game
I'll never, never, I will never be free, free again

Oh baby you've got control
Of my heart of my very soul
I love it baby, I love it baby, I love it when you call my name
I love it baby, I love it baby, I love it when you call my name

When you call my name give me such a thrill
Call my name zero in for the kill
You know you've got yourself a deadly aim
I love it when you call my name
You know, I love it
Yes I do, I love it

Call my name, all night long
Call me up at work and whisper on the telephone
I know you play a dirty dirty game
I love it when you call my name
I said i, I love it, I love it
Oh got to get to give me your love
Oh baby, oh yeah

I love it when you call my name
