

What Can You Do For Me

The Nylons

People want truth
Or nothing at all
People want sincerity
And nothing false
People need happiness
As land needs rain from above
We need rain. we need life, we need love
Most people find it so hard to live without
Love, love, love, love, love, love
Oh yeah

People want to live, not merely exist
People want to enjoy, not suffer and fear
People need understanding, not impatience or confusion
Oh I wonder should we hate those
Who present us disillusion
They talk about love, love, love
And lie about love, love, love
And they talk about love, love, love
Oh yeah

We need power
We need power
And we need peace, peace, peace, peace
I think we all agree
Let's stop fighting
Let's stop fighting
And become sisters and brothers
And become sisters and brothers
And become sisters and brothers
And become sisters and brothers
And show it's not too late to
Love, love, love
Love, love, love
Love, love, love
Love, love, love
Love, love, love
Love, love, love
What can I do for you
What can you do for me
