

# You're The One I Turn To

The Nylons

When I'm feeling down  
Lost and all alone  
You find the way to lead me home  
You're like the sun shining on me  
Without your love where would I be

(Chorus)

You're the one I turn to  
No one cares like you do  
You're the one I turn to  
When I need a helping hand  
Your love keeps me going  
When troubled winds are blowin'  
You're the one I turn to  
The only one who understands

There have been days  
I couldn't carry on  
Feeling too weak to greet the dawn  
But like a rock you stood there by me  
In you I find strength and dignity

(Chorus)

What did I do  
To make you fall in love  
With someone like me  
Who is so in love with you

You're like the sun shining on me  
Without your love where would I be

(Chorus)
