

## Back In Your Arms Again

The Oak Ridge Boys

The call that I made tonight  
Was such a long time due  
Baby how long since I heard from you?  
I don't really know  
What's happening here to me  
All that I know is that I long to be

Back in your arms again  
I need your love all I can get  
Whatever it takes  
You know I'll be there  
Back in your arms  
Back in your arms

The last time I spoke to you  
You told me that we were through  
That you had found that special someone new  
Now that I really know  
This feeling of being free  
I know that you know where I long to be

Back in your arms again  
I need your love all I can get  
Whatever it takes  
You know I'll be there  
Back in your arms

Back in your arms again  
I need your love all I can get  
Whatever it takes  
You know I'll be there  
Back in your arms  
Back in your arms
