

# Come By Here

## The Oak Ridge Boys

O when you feel that you ain't got a friend  
Come by here, come by here.  
I'll open up my heart and I'll let you in  
Come by here, come by here.

Woh come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here.

When you're lown gets too much to bear  
Come by here, come by here.  
In me, you've got someone who cares.  
Come by here, come by here.

Woh come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here.

I'll make you wake right  
I'll make your first light  
I will be with whether you're wrong or right  
I will, oh I will, oh yes I will, oh yes I will.  
Come by here.

Woh come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here.

If your world seems dark and dreary  
Come by here, come by here.  
I can brighten it up now, if you'll just let me.  
Come by here, come by here.

Woh come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here.

I will make you wake up a little bit brighter  
And I will your load just a little bit lighter.  
I'll be your friend, wow, your closest kin  
And I will be with you till the bitter end.  
Why don't you come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here, Wo woh come by here.

Woh come by here, come by here.  
Come by here yer, come by here.  
Wo woh come by here.
