When I get tired and a little lonely, the worlds turned it's cold back on me

When I'm about to swear I ain't got a friend left to my name Instead of sinking a little lower I start making tracks on over

To a place where the sun shines day and night and where I know I'll hear you say

Come on in, baby take you coat off, come on in, baby take a loa d off

Come on in, baby shake the blues off I'm gonna love that frown away

Come on in, baby put a smile on, come on in, baby tell me what's wrong

Come on in, the blues will be long gone I'm gonna love your hur t away

When I feel a lonesome night coming on, every thing I did all d ay went wrong

There's a black cloud following me around and I just can't get away

Instead of sinking a little lower I start making tracks on over

To a place where the sun shines day and night and I know I'll h ear you say

Come on in, baby take you coat off, come on in, baby take a loa d off

Come on in, baby shake the blues off I'm gonna love that frown away

Come on in, baby put a smile on, come on in, baby tell me what's wrong

Come on in, the blues will be long gone I'm gonna love your hur t away  $\ensuremath{\text{t}}$
