

Rainbow At Midnight

The Oak Ridge Boys

Tonight love without warning
Stole right into this room
And amazed me like morning
Cause the night is far from over
But the light is shining through.

And there's a rainbow at midnight
And the faint glow won't loose
There's a rainbow at midnight
Shining all the way from here to you.

You can live life without dreaming
Or your dreams never come true
But to save me that worry
With a dream to keep believing
When the rest have fallen through

And there's a rainbow at midnight
And the faint glow won't loose
There's a rainbow at midnight
Shining all the way from here to you.

Heaven is saying
This time love won't leave you
Never be afraid or blue.

There's a rainbow at midnight
There's a faint glow won't loose
There's a rainbow at midnight
Shining all the way from here to you.

There's a rainbow at midnight
There's a faint glow won't loose
There's a rainbow at midnight
Shining all the way from here to you.
