

## Smaller

### The Oak Ridge Boys

Things are obsolete before you get them home  
They're out of style the day you put 'em on.  
A bigger this, a faster that  
If that's really where it's at  
It makes me wanna make my world

Smaller like the town where I was raised  
Slower, an easy gentle pace  
Fewer, things to take up space  
There's higher, there's wider, there's taller, but for me  
Better isn't bigger, it's smaller.

In this frantic and expanding universe  
You gotta get ahead, you gotta finish first  
It's gone too far, I'm spread too thin  
I've got to find myself again  
I'd like to see my circle grow.

Smaller like the town where I was raised  
Slower, an easy gentle pace  
Fewer, things to take up space  
There's higher, there's wider, there's taller, but for me  
Better isn't bigger, it's smaller.

When I follow my own heart  
It's like the sound of a different drum  
But if I listen I start to see my cares become

Smaller like the town where I was raised  
Slower, an easy gentle pace  
Fewer, things to take up space  
There's higher, there's wider, there's taller, but for me  
Better isn't bigger, it's smaller.
