

# Something In The Water

The Oak Ridge Boys

One day I decided I would go  
And wet my line down at the fishing hole  
Found you sitting there in a calico dress  
On the banks, bare feet hanging over the edge.

It was July hot, about a hundred and ten  
That river looked inviting so we jumped right in  
We'd only been friends up until that summer  
But that all changed the moment we went under.

Something in the water that we did not see  
Reached up and grabbed a hold of you and me  
Jumped in to cool off but we came out hotter  
Lord have mercy must be something in the water.

We started smiling then we started laughing  
We swam around, kicking and a splashing  
Not sure exactly just what it was, but we  
Dove in the river and fell in love.

Look at the surface, you don't see nothing  
But underneath, Lord, it's really something  
One little kiss was all it took  
Came here to fish and we sure got hooked.

Something in the water that we did not see  
Reached up and grabbed a hold of you and me  
Jumped in to cool off but we came out hotter  
Lord have mercy must be something in the water.

I believe that I could make a million bucks  
If I could only find a way to bottle it up.

Something in the water that we did not see  
Reached up and grabbed a hold of you and me  
Jumped in to cool off but we came out hotter  
Lord have mercy must be something in the water.  
Lord have mercy must be something in the water.
