

## True Heart

### The Oak Ridge Boys

Some people spend night and day  
Making money they can hide away.  
They never know what they're working for,  
All they think about is making more.

And every time the world spins round  
There's a few more hearts that can't be found  
Cause they never had nothing to hold on to  
The way that I'm holding you.

All I ever need is your true heart  
Next to me when it's cold and dark.  
All I need to keep from falling apart  
Is the beat of your true heart.

Some people spend day and night  
Trying to love everybody in sight  
They never know what love is for  
All they think about is keeping the score.

And every time the world spins round  
There's a few more hearts that can't be found  
Cause they never had nothing to hold on to  
The way that I'm holding you.

All I ever need is your true heart  
Next to me when it's cold and dark.  
All I need to keep from falling apart  
Is the beat of your true heart.

Your true heart.

No they never had nothing to hold on to  
The way that I'm holding you.

All I ever need is your true heart  
Next to me when it's cold and dark.  
All I need to keep from falling apart  
Is the beat of your true heart.

All I ever need is your true heart  
Next to me when it's cold and dark.  
All I need to keep from falling apart  
Is the beat of your true heart.

All I ever need is your true heart  
Next to me when it's cold and dark.  
All I need to keep from falling apart  
Is the beat of your true heart.
