

Blue skies come down on me  
White clouds are now in view,  
it rained forty days you know  
it rained forty nights you know  
Blue skies came down on me.  
Be careful what you say  
You said that yesterday,  
Tell me something new  
It's always, always you  
Blue skies come down on me  
Gray clouds are far away,  
I sought it for days on days  
I sought it six weeks or so  
But blue skies came down on me.  
Be careful what you say  
You said that yesterday,  
Tell me something new  
It's always ocean blue  
Blue skies come down on me  
White clouds are now in view  
and you should see the view  
and you should see the view  
Blue skies
