## **Cloudy Days**

## **The Ocean Blue**

You're so special You're so fine You're good looking You're so divine and it seems like a breath of a moment and it seems like a wisp of a tow We'd do much better Without my mind Does so much wandering Kills so much time and it seems like a breath of a moment and it seems like a wisp of a tow Is all I get When I'm in your gaze Brief sunshine in my cloudy days I like the rain I love the snow it's just the pain Of those cloudy days
