

## Flowers Die

## The Only Ones

Cold days of winter have been and gone  
Wonder what the summer will bring  
Maybe a new love to carry me on  
But first gotta get through spring

I don't know why  
But all the rivers  
They're gonna run dry

The first on, the last to go home  
There's a rustling behind me  
Turning back but should have known  
There ain't nothing to see

I find myself searching  
For the real thing  
I don't know who I'll be hurting

I came a long time ago  
Been around since I don't know when  
Stuck it out even though I don't fit  
But I feel so helplessly alone, alone, alone, alone

I feel so alone  
C'mon and warm my heart  
Guitar...
