## **Strange Mouth**

## The Only Ones

I've been, down south I don't wanna be there again I've seen, your mouth I don't wanna see it again

Strange mouth Waiting to consume your meat Strange mouth, craving Flesh as well as blood

Bye bye, my love I don't wanna see you again For a long, long time I ain't gonna see you again

I know, it's hard to believe but I know What's happening to me, oh

They've cap-tured me Completely unawares I've never, seen Hungry faces quite like theirs

Strange mouth Waiting to consume your meat Strange mouth, craving Flesh as well as blood

Before, I go I hope someone will listen to me Each time flesh from my bones ?? Have left me in a heap

I'm undone, it's happened to me I've become, a cannibals meal
