

On An Island

The Ordinary Boys

While we float on this molten sea
we wear our colours so heroically
Were only living in GMT
Everyone else is just a refugee

I wake up, I'll take up
It's about time for a shake up
When pride is blind you know we're only stuck in second gear
So wrap up, never give up
It's about time to deliver
Without the man who drives you ...?
You know I'm staying in

We're on an island in the sea
We're on and island we never leave
We're on an island in the sea
We're on and island we never leave

Well we feel subsequent resent
And overseas we like to represent
Cause nothing but embarrassment
We had nothing but our good intent

Ah I wake up, I'll take up
It's about time for a shake up
Talking louder doesn't mean
You can be understood
So wrap up, never give up
It's about time to deliver
I think it's about time
We got to meet the neighborhood

We're on an island in the sea
We're on and island we never leave
We're on an island in the sea
We're on and island we never leave

We're on an island in the sea
We're on and island we never leave
We're on an island in the sea
We're on and island we never leave
