

## Like No One Else

The Orwells

My baby's got me down  
But she don't like it in this town  
I laugh when nobody's around  
And I never make a sound

My baby's got me down  
But she don't like it in this town  
I laugh when nobody's around  
And I never make a sound

You gotta think your self  
And dress yourself  
And don't do nothing like no one else

You gotta think your self  
And dress yourself  
And don't do nothing, My baby's got me down  
But she don't like it in this town  
I laugh when nobody's around  
And I never make a sound  
My baby's got me down  
But she don't like it in this town  
I laugh when nobody's around  
And I never make a sound

You gotta think your self  
And dress yourself  
And don't do nothing like no one else

You gotta think your self  
And dress yourself  
And don't do nothing, My baby's got me down  
But she don't like it in this town  
I laugh when nobody's around  
And I never make a sound  
My baby's got me down
