Like No One Else

The Orwells

My baby's got me down
But she don't like it in this town
I laugh when nobody's around
And I never make a sound

My baby's got me down
But she don't like it in this town
I laugh when nobody's around
And I never make a sound

You gotta think your self
And dress yourself
And don't do nothing like no one else

You gotta think your self
And dress yourself
And don't do nothing, My baby's got me down
But she don't like it in this town
I laugh when nobody's around
And I never make a sound
My baby's got me down
But she don't like it in this town
I laugh when nobody's around
And I never make a sound

You gotta think your self
And dress yourself
And don't do nothing like no one else

You gotta think your self
And dress yourself
And don't do nothing, My baby's got me down
But she don't like it in this town
I laugh when nobody's around
And I never make a sound
My baby's got me down
