

Gabrielle

The Osmonds

Gabrielle, no words can tell
The sadness I see in your eyes
I know breaking up can shake you up
But I can't settle down you know I've tried

I'll remember you, you were the sunshine on my shoulder
I never meant to bring you rain, no, no, no
My sweet Gabrielle, so many times I tried to tell you
A rolling stone can't stay in just one place

I was so happy when I found you
Don't know what life would be without you
And maybe I'm a fool to ever let you go
You'll be better off without me if you can't build your world a
round me

Gabrielle, sweet Gabrielle,
my Gabrielle, you know I love you
Gabrielle, sweet Gabrielle,
my Gabrielle, can't live without you

Gabrielle I can't help myself
When things look good I run away
You'll always be a part of me
But now you've got to think about yourself

I'll remember you, the one who tried to understand me
I always did the best I could
Oh, next to you, nobody else knew how to love me
Why you did I never understood

I'll never be the same without you
To the end of my life I'll think about you
Why I can't stay around you words can never tell
And one last thing that you should know

I just can't go, I love you too much, Gabrielle
Sweet Gabrielle, words can never tell how much I love you
Gabrielle, you know I love you, you know I need you
Gabrielle, Gabrielle, one last thing that you should know

I just can't go, I love you too much, Gabrielle
Words can never tell how much I love you
Gabrielle, you know I love, you know I need you
