

# I'm Still Gonna Need You

The Osmonds

Girl, you say you wanna leave me  
You wanna go your merry way  
You no longer want, the love we used to share  
Why do you treat me this way

I'm still gonna need you  
For ever more  
For ever more

How well I'll ever remember  
That cold and dreadful night  
When you told me that you loved me girl  
And walked right outta my life

Oh, where and when did I go wrong  
Somebody let me know  
I love you more than life itself  
Oh, how can I let you go?

I'm still gonna need you  
For ever more  
For ever more  
For ever more

So many times I've thought about  
You and yesterday  
The things we did the hopes we had  
The friends we used to make

There is cool reflection that we did and say ?  
But they're gone gone gone gone  
I hope that they start to stay ?

I'm still gonna need you  
For ever more

For ever more  
For ever more  
For ever more
