

The Honey Bee Song

The Osmonds

Bzzz

Bzzz

I take you to the movie
every Friday after school
About the time the picture starts,
you start playing it cool
You send me out for candy, girl
then send me back for more
But when I reach for something sweet you close your candy store

If you want a taste of honey,
you've gotta get next to the bee
Well, baby, now you better
stop your buzzing around and
give your love to me
If you want that special sweetness, it's easy as can be
So, just come along and
taste my honey, girl,
start your buzzing next to me

Every time I wink at you,
you turn a little red
But girl, I think you love me too, although you turn your head
Every time I'm with you
I get an awful craving
Girl I got a sweet tooth for
that sugar you've been saving

If you want a taste of honey,
you've gotta get next to the bee
Well, baby, now you better
stop your buzzing around and
give your love to me
If you want that special sweetness, it's easy as can be
So, just come along and
taste my honey, girl,
start your buzzing next to me

If you want a taste of honey,
you've gotta get next to the bee
Well, baby, now you better
stop your buzzing around
and give your love to me
If you want that special sweetness, it's easy as can be
So, just come along and
taste my honey, girl,
start your buzzing next to me

If you want a taste of honey,
you've gotta get next to the bee
Well, baby, now you better
stop your buzzing around and
give your love to me
If you want that special sweetness, it's easy as can be
So, just come along and
taste my honey, girl,

start your buzzing next to me
