

On the Line

The Outfield

You keep telling me everything's gonna be cool tonight
But I keep thinking that you might be going outta
your mind
It's a perfect little invitation
But I gotta lot of reservations
So leave a message on the line for me
Girl you know I'm gonna need a sign
And if you wanna take a ride with me
Better call me up - leave a message on the line

You keep telling me he don't got a clue
about anything
But I keep thinking that he knows it's going on
all right
I guess I've got a lot of hesitation
I'm gonna give it some investigation

I keep thinkin' that I'm gonna need a rocket
just to calm me down
But you keep telling me everything's gonna be fine
I don't wann be your service station
You could always get a good vibration
