

## Slow Motion

### The Outfield

If I said these words  
A thousand times  
Would you believe me?  
If I gave you my promise forever  
Would you deceive me? '  
I don't care if the whole world outside  
Is one locomotion  
When I see you tonight  
We're gonna make love in slow motion  
If I told you  
I was a clown  
Would you believe me '  
If I gave you my shoulder to cry on  
Would you deceive me  
It can happen just once in a lifetime  
Accept every notion  
When I see you tonight  
We? re gonna make love in slow motion  
I would count every star in the sky  
To prove my devotion  
When I see you tonight  
We're gonna make love in slow motion  
If I was accused  
Without a crime  
Would you believe me?  
If I was innocent  
Time after time  
Would you deceive me?  
This can happen just once in a lifetime  
Accept every notion  
When I see you tonight  
We? re gonna make love in slow motion  
I would climb every mountain  
I'd sail every ocean  
When I see you tonight  
We're gonna make love in slow motion  
When I see you tonight  
We? re gonna make love in slow motion
