

# Heavenly Blues

The Outlaws

Mornin' brings the sunlight  
Risin' in my heart  
It's only us together on the phone  
Through the magic line I find  
It's only us apart  
Never hurts to know you're not alone

But if you must know the reason  
Heavenly skies are blue  
And why it breaks my heart  
To say goodbye  
It's only that I love you  
You know I always will  
You and your heavenly blues

Racing through the timeless days  
While I'm so alone  
Laughter in my dreams  
Stay for awhile  
When I wake to find you're gone  
I'm never far from home  
Never too far gone to feel your smile

But if you must know the reason  
Heavenly skies are blue  
And why it breaks my heart  
To say goodbye  
It's only that I love you  
You know I always will  
You and your heavenly blues

You and your heavenly blues

I love the captured sorrow  
Beyond tomorrow's blues  
Hear the caged bird  
Sing her lonely song  
She's singing that for you and me  
And all the world to see  
Her tender strength remains for every song

But if you must know the reason  
Heavenly skies are blue  
And why it breaks my heart  
To say goodbye  
It's only that I love you  
You know I always will  
You and your heavenly blues

You and your heavenly  
You and your heavenly  
You and your heavenly blues
