I remember hangin' up my guns And tellin' you, I was done I tried to change But I've got my ways There's still an outlaw In me I must face So I'm tellin' The boys to pack my things I'm pulling out in the drivin' rain I hear voices callin' night and day I don't know If I'll be back this way Takin' one last ride, one more run Takin' one last ride, then I'm done Takin' one last ride Takin' one last ride To get me down the road When you rise, open your eyes Read my note, don't be surprised I'm not runnin' from love Not runnin' from pain I just need shelter From the drivin' rain You can do no wrong I can do no right Got this feelin' in me I must fight I'll be careful and you be strong Cause I still love you But it's been so long Takin' one last ride, one more run Makin' one last ride, I'll be done Makin' one last ride Makin' one last ride To get me down the road Takin' one last ride, one more run Makin' one last ride, I'll be done Makin' one last ride Takin' one last ride To get me down the road To get me down the road, ooh ooh

Oh oh
