

# Stick Around For Rock And Roll

The Outlaws

Why don't you stick around  
for some rock and roll,  
now that you've stayed,  
think it's time to take a toll,  
then you will find, then you'll find  
that the music you see (yes you do)  
Oh, then you'll know  
that the music is free (just for you)

You say you will always love me,  
never knowin' what you wanted to be.  
Sunshine, moonlight;  
makes no difference to me,  
all I want is for you to be free.

Why won't you stick around  
for some rock and roll,  
now that you've stayed,  
think it's time to take a toll,  
then you will find, then you'll find  
that the music you see,  
oh, then you'll know  
that the music is free.

Never mind what they may say to you,  
tell me, tell me, baby,  
tell me what can they do?  
You know, I know  
everything is true,  
so, why don't you just let me love you, anyway,

I said, why don't you stick around  
for some rock and roll,  
now that you've stayed,  
think it's time to take a toll,  
then you will find, then you'll find  
that the music you see  
Oh, then you'll know  
that the music is free,  
just for you.
