

# Whatcha Don't Do

## The Outlaws

I ain't runnin' my engine hot  
To drive another twenty times  
Around the block  
How many miles we gonna put  
On this small town highway  
Only one way, I see to go  
Just put the wheels in the road  
Keep your foot on the gas  
And be two long gone hombres

We got time  
But there's only so much of it  
It's so far to go, to break through  
To where the only regrets  
Are the things that you don't do  
It's whatcha don't do  
Take all the good times  
And never give in  
Some dreams are made to come true  
Where your only regrets  
Are the things that you don't do  
It's whatcha don't do

The setting sun in our sights  
A wild wind at our backs  
Hot on the case of some face  
Somewhere out there  
Back to back, side to side  
We might take it  
On the chin sometimes  
But any road we ride  
Beats the hell outta goin' nowhere

We got time  
But there's only so much of it  
It's so far to go, to break through  
Where the only regrets  
Are the things that you don't do  
It's whatcha don't do  
So take all the good times  
And never give in  
Some dreams are made to come true  
Where your only regrets  
Are the things you don't do-o-o-o  
Ow wooh ow

Some are natural born believers  
Forever runnin' with the pack  
Others must go like heroes, alone  
And never look back  
Whoa oh oh, never look back, ha

We got time  
But there's only so much of it  
Where the only regrets  
Are the things that you don't do  
Whatcha don't do

Take all the good times  
And never give in  
It's what you regret, when you  
Get to where you're goin' to  
Your only regrets are the things  
(Are the things)  
That you don't do  
It's gonna haunt you  
It's whatcha don't do  
It's whatcha don't do  
Ooh ooh ooh  
It's whatcha don't do
