

## Following The Way That I Feel

The Ozark Mountain Daredevils

Lately I've felt a little crazy  
Like I do when that moon's gettin' full  
Is there a change in the air or the way that I care  
How can I explain how I feel

Wish I knew me better  
And I would if I half-tried

But my will is strong and it just carries me on  
Following the way that I feel  
No my love ain't dead it just got to my head  
And I need a little space to feel free

Lately, I've gone a lot of places  
And seen a lot of things I didn't need to see  
Maybe I followed a star a little bit too far  
And lost something along the way

Or maybe I needed to lose  
Something I shouldn't have had  
But it feels so good to take a second look  
Following the way that I feel  
No my love ain't dead it just got to my head  
And I need a little space to feel free

I feel loose and contented  
Like to go where I want, when I can  
If I set too much, my thoughts begin to rush  
And nothin' is clear that I hear

I guess I'm a mover  
Just travelin' through my life to somewhere

But it feels so good to take a second look  
Following the way that I feel  
No my love ain't dead it just got to my head  
And I need a little space to feel free  
While following the way that I feel

While I'm following,  
Following the way that I feel  
Yes I'm following,  
Following the way that I feel
