

## If It's True

### The Ozark Mountain Daredevils

She combs her hair by the light we share  
from that little lamp by the door  
I read my antique rhymes for her as she  
Sits by me on the floor  
And as long as this goes on  
There'll be love in every song we sing

I see a change in the dead of night like the  
Changin' light of the moon  
An echo heard, a glimpse, a word and her  
Shadow crosses the room  
And as long as this goes on  
There'll be love in every song we sing

There'll be love  
All the love that we need  
If it's true

I give her love and a place to dream and she  
Gives me what's in her heart  
We sleep alone in this dream we've made and the  
Rain beats down in the dark  
And as long as we can sing  
There'll be love in everything we do

There'll be love  
All the love that we need  
If it's true  
There'll be love  
All the love that we need  
If it's true  
If it's true, if it's true  
If it's true, if it's true

ohhhhhhh  
ohhhhhhh  
ohhhhhhh  
ohhhhhhh
