

Spaceship Orion

The Ozark Mountain Daredevils

When the man comes to you
Tells you what you always knew was comin'
You feel it came twice as fast
You always thought the world would last way past you

But now you find
There's nothin' left around you
Spaceship Orion's there
Waiting to part the air above you

Waiting to take you
Waiting to place you
In a world exactly different
From the one you leave behind

If you find it man you're lucky
But it still won't be the same
If can't be like home
It can't feel like home
To you there

It can't be like home
It can't feel like home
To you there
If can't be like home
It can't feel like home
To you there
