

## Kurt Cobain's Cardigan

### The Pains of Being Pure At Heart

You say tomorrow is gone, tomorrow's not gone  
Just let it come  
I'll walk the length of your town, 'til no one's around  
Except us punks

The way we are now it's alright  
So don't tell me it's the last night of our young lives  
The way we are now, it's alright  
So don't tell me it's the last night of our young lives tonight

Again, again stop trying to win  
The things that you want, I'll never miss  
We've got a rainbow of sound, so tell me what's wrong  
With cum and bliss

The way we are now it's alright  
So don't tell me it's the last night of our young lives  
The way we are now, it's alright  
So don't tell me it's the last night of our young lives  
Won't you come with me tonight?
