

## Go On

## The Panic Channel

God of first and last things  
father of our failing  
the mirror knows us well  
better than we know ourselves

now go  
the world won't wait so long  
go on

all your noble efforts  
sacrificial fireworks  
smell the sulfur when all goes wrong  
wicked people have no songs

now go  
the world won't wait so long  
a crime to see it wasted  
before all is said and done  
go on

so we made a mountain  
from the white lie landfill  
how it used to protect us  
let's build a fire and  
burn it down

now go  
the world won't wait so long  
a crime to see it wasted  
before all is said and done  
go on  
go on  
go on  
go on

close your naked eye  
close your naked eye  
it's a sin to keep it open  
why you keep it open?  
close your naked eye  
close your naked eye  
and see
