

## Kiss The Grass

The Paper Kites

Sweet daisy chain  
Around your neck  
Through your hair  
In the sun  
Sweet glowing skin  
Kiss the grass  
Golden air fill your lungs

Slow down, let it all slow  
Slow down, let it all slow

Sweet orange sky  
Watch it fade  
Colours mango and blue  
Sweet glowing skin  
Kiss the grass  
And the light passes through

Slow down, let it all slow  
Slow down, let it all slow  
Slow down, let it all slow  
Slow down, let it all

And our bones are growing stronger  
Every day we breathe it in  
We make time to see  
And find our healing

Sweet daisy chain  
Around your neck  
Through your hair  
In the sun

Slow down let it all slow,  
Slow down let it all
